Name: Date: Score: _____/4

Independent Practice 3.2

Instructions: Answer each question thoughtfully and completely. Use complete sentences and examples, pictures or models to fully explain your response. Initial here if you read the instructions: _____

1. All rates are ratios. Are all ratios rates? Explain your answer in complete sentences.

2. A test question asked students to find the ratio of circles to triangles. Greg got 5:2 as his answer and Paige got 2:5. Do their answers mean the same thing? Why or why not. Answer in complete sentences.
